RE: NOTICE OF TRANSFER / SPECIAL WASTE APPROVAL
 Disposal of Drained Waste Oil Filters
 Cedar Ridge Landfill, Permit # 59-0238

Dear Mr. Swanson:

On April 22, 2016, The Division of Solid Waste Management Columbia Field Office received your written request to add Cedar Ridge Landfill as an alternate disposal site for special waste generated from January Environmental. This special waste, consisting of **Drained Waste Oil Filters**, was approved on February 2, 2016 at an estimated rate of **20 tons / month**.

Based upon review of your request, this office approves the addition of Cedar Ridge Landfill as a disposal site for this waste. Please note this approval is contingent upon the following conditions/restrictions:

1. No free liquids may be associated with the disposal of the waste;
2. If the physical or chemical properties of the waste change significantly, the DSWM must be immediately notified for re-evaluation;
3. Notification shall be given to the landfill prior to shipment of the waste;
4. All the referenced waste shall be disposed in a portion of the landfill that meets the conditions of Rule 1200-1-7-.04(4).

This special waste approval is due to be re-certified by the DSWM by July 1, 2017 in accordance with Rule 1200-1-7-.01(4)(c)4.

If you should have any questions regarding this correspondence, please feel free to call me at (931) 840- 4158.

Special Waste Transfer Approval
